Gear:

Summary: (machine translated)
Short canyon, 5 rappels

Hydrology:

Access: (machine translated)
We leave the A-9 (Perpignan-Barcelona) via the exit Le Boulou (49 km before the French-Spanish border). On the D-115 we go up the valley of the Tech, pass Amelie Les Bains Palalda as well as Arles sur Tech and after 19.1 km we come to a road on the left crossing the river Tech.\nWe follow the signs "Fontaine de Buis", "Stade" et "Cascade". At a fork - left goes to the chapel "La Santa Creu" - we keep straight and then cross 2 bridges. The latter leads over "our" brook. Immediately before this bridge we park our car.

Approach: (machine translated)
We cross the bridge and take the footpath that branches off to the left immediately after "Cascade", "Oratoire". We follow this for 650 m or about 20 min, then at the junction we take the path that descends to the left to the bridge (entry).

Tour: (machine translated)
5 Rppel, pay attention to rope retrival!

Return: (machine translated)
After the last cascade left up to the approach path and on this back to the car.

Coordinates:
Canyon Start 42.4417 2.6286
Parking Entry and Exit 42.4464 2.6236
Canyon End 42.4442 2.6265

Automatisch importiert von Descente-Canyon.com für Canyon Maria Valenta Très beau canyon, de superbes rappels, failles... équipement top. Rappels débrayables du bas pour éviter les frottements comme l'indiquent les autres commentaires. Accédé par le bas via le ruisseau pour contourner la propriété privée, par cet accès retour en 10 minutes à la voiture et en descente possible en combi. Automatisch importiert von Descente-Canyon.com für Canyon Maria Valenta Magnifique descente technique et vertical parcouru à 4 ! Attention à bien respecter les relais de fins de cascade pour éviter un coincement lors du rappel de la corde dans les blocs. Dans toutes les cascades, penser à faire un débrayable du bas pour le dernier à descendre car le risque d'un coincement arrosé est assez élevé notamment dans les cascades en diagonales et relativement aux fissures et autres coincements de pieds possibles. Automatisch importiert von Descente-Canyon.com für Canyon Maria Valenta Belles conditions dans le Salt Maria Valenta, avec son débit incroyablement constant. En amortissant et en sautant le plus loin possible, la dernière partie de la grande cascade finale passe bien en saut, même du bloc. Bonne équipe, belle équipée.
