Summary: (machine translated) Lush vegetated forest canyon, Is also walked commercially.		
Hydrology:		
Access: (machine translated) From Lleida, drive north on the C-13 via Tremp to Pobla de Segur (100 km). Turn left at the traffic circle before crossing the river Flamisell and continue on the N-260 to Senterada (10 km). At the entrance to the town, turn right into Vall Fosca, take the L-503 and after 13 km turn right uphill towards Mont-Ros. Where the road crosses the Rio Les Espones, leave one car on the open space on the right. Continue with the other car up to Mont-Ros, turn left at the crossroads before the village, the road leads to the upper edge of the village. Continue left (northwest) and park the car before the next right-hand bend.		
Approach: (machine translated) In the mentioned bend, go up on a barely recognizable dirt road, later across meadows in a northerly direction until you reach a barn. Pass it on the right, continue to a path that crosses the slope over a water pipe (not visible) and climbs steadily towards the streambed (approx. 300 m). The path turns slightly to the right. Before it starts to climb a little more, go down to the left to the streambed of the Espones.		
Tour: (machine translated) Only a few small rappels, but some tricky downclimbs when there is a good flow of water.		
Return: (machine translated) At the small dam on the left directly to the road.
