Season:	**Orientation:**	**Best Time:**
Rating: ☆ 1.9 (2)	**Info:** ★ 0 ()	**Belay:** ★ 0 ()

Specialities:

Gear:

Summary: (machine translated)
Alpine forest canyon

Hydrology:

Access: (machine translated)
From Nice on the N 202 through the Var valley to the north, then to the west and finally at Entrevaux again to the north to the Gorge de Daluis (via the D 2202 direction Guillaumes). After the village of Daluis, the road rises sharply to cross the canyon Gorge de Daluis at 100 to 200 m above the Var wild and romantic. Where the road changes at the beginning (upper exit) of the Daluis canyon to the orographic left bank of the Var (Pont des Roberts), we turn sharply right and drive on the disused railroad line for almost 2 km to the campsite on the right below.\nHere at the bridge over the Tireboef we park the second vehicle. With the other we drive back to the road bridge (or walk if necessary) and park it there - beyond the N 2202 large parking lot.

Approach: (machine translated)
At marker "111" the trail (740 m above sea level) begins in the direction of the hamlet of Amen. It is also the initial stretch of the access to the Clue d'Amen, which is made clear by a corresponding (canyon) sign.\nIn long serpentines we go up, on the right there is a view of Var and campsite, until we reach the stone bridge over the Tireboeuf (907 m a.s.l.).

Tour: (machine translated)
Only the 18 m rappel can justify the tour. However, if you combine it with other tours nearby (Chaudan, Clue d'Amen, Gorge de Daluis or Bertheou) or stay overnight at the mentioned campsite, you have not made a mistake.

Return: (machine translated)
At the exit of the canyon where the gulch opens, it is best to go out to the left and follow clear tracks, lastly across a meadow, down to the road.

Coordinates:
Canyon Start 44.0662 6.8679
Canyon End 44.0671 6.8596
