Automatisch importiert von Descente-Canyon.com für Canyon Salvassa Super descente, équipement béton.Niveaux d'eau étrangement bas vu la saison et la neige des derniers jours qui fond.Le chemin d'accés est vraiment galère, on n'a pas vu de points verts.Le topo du livre de Guerrero Javier est vraiment top. Il préconise plutot des cordes de 2x60m. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/23711/observations.html)
