2026-04-06 System User 📖 📍 🌊 Normal 🍀 Completed Automatisch importiert von Descente-Canyon.com für Canyon Salvassa Super descente, équipement béton.Niveaux d'eau étrangement bas vu la saison et la neige des derniers jours qui fond.Le chemin d'accès est vraiment galère, on n'a pas vu de points verts.Le topo du livre de Guerrero Javier est vraiment top. Il préconise plutôt des cordes de 2x60m. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/23711/observations.html)
