Automatisch importiert von Descente-Canyon.com für Canyon Salto médio Enchaîné avec la partie sup. Beau canyon bien sauvage ! La moitié des relais était complètement englouti par la mousse ! Invisible il fallait chercher à taton sur les parois pour les découvrir ! Attention au frottement, roche bien abrasive !Les locaux nous on recommandé de ne pas faire la partie inf à cause de la houle. Les vagues rendrait dangereux la marche de retour sur la côte ? Attention au crue éclair ! Avec peu de pluie on à vue des canyons de l'île ce chargé vraiment fort! (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/23518/observations.html)

Automatisch importiert von Descente-Canyon.com für Canyon Salto médio Équipement correct. Les points du premier grand rappel de 40m sont cachés dans la végétation RD. Le second grand rappel de 40m se fait sur ancrage naturel RD. Pour la marche d'approche utiliser wikiloc. La sortie se fait juste après le pont de pierre RG en s'aidant à l'aide d'une corde en place.
