Summary: (machine translated) Rappel canyon, which can convince especially by its scenic ambience. Most of the time is spent on downclimbing.		
Hydrology:		
Access: (machine translated) From Dorgali we take the SS125 towards Baunei/Tortoli. 2,3 km after the junction of the SP37 to Urzulei we turn left from the SS125 towards Codula di Luna, Teletotes. At the exit of the road, in Teletotes, we park our car. \n\na possible realization can be taken from the Google Earth sketch in the "Photo Gallery".		
Approach: (machine translated) From the place at the exit of the slope (parking lot in case of possible transfer) we follow the path in northern direction. At a fork we take the left branch, which leads us after a few meters into the streambed.\n\nMarch without shuttle: \n\n https://www.wikiloc.com/canyoneering-trails/bacu-su-palu-parziale-18297169		
Tour: (machine translated) In the course of the descent about 12 steps, some of which are rappelled, some bypassed. See http://win.aic-canyoning.it/forum/topic.asp?TOPIC_ID=883		
Return: (machine translated) Just before the Bacu su Palu flows into the Riu Codula di Luna, we come across a hiking trail that crosses the streambed. Following this to the right, we come directly to the car in Teletotes.
