rappel canyon

Hydrology:

Access: (machine translated)
From Ventimiglia up the Roya valley. Passing the junction of the road (D 19) to Sospel (16 km from Ventimiglia), turn right about 1.5 km further and cross the Roya to Fanghetto, where you park the vehicle in front of the village.

Approach: (machine translated)
The footpath to Breil-sur-Roya takes us slightly uphill in a northerly direction. Without realizing it, we cross the border to France. At the "411" marker, we turn right onto a path that climbs slightly up the orographic left slope of the Audin. We pass the marker "445", where the entry to the lower Audin (only jumps and slides without real rappel) goes down to the left.
We follow the path, which climbs in a wide arc, crosses a side stream and leads over a broad ridge to the stream. The access is otherwise described via the village of Libre with shuttle, but this leads over 8 km there and back, so the time saving is hardly significant and the pleasant ascent with a view of the 40 m waterfall seems more sensible.

Tour: (machine translated)
Unfortunately, between the high waterfall and the lower fun part is a run with block climbing of about 300 meters. The walk is actually only worthwhile if there is some water flow in the high waterfall.

Return: (machine translated)
As a rule, the Audin aval (II) continues to its exit (cf. there!)
