Specialities:

Gear:

Summary: (machine translated)
Dry canyon with hardly any flat sections and with a vertical of 80m split.

Hydrology:

Access: (machine translated)
Arriving in Argelita from the south, follow the road towards Ludiente until you reach some picnic areas.

Approach: (machine translated)
From the picnic areas we go down to the river by the most natural place and just as we cross the river the path begins. When we reach a track we continue to the left.

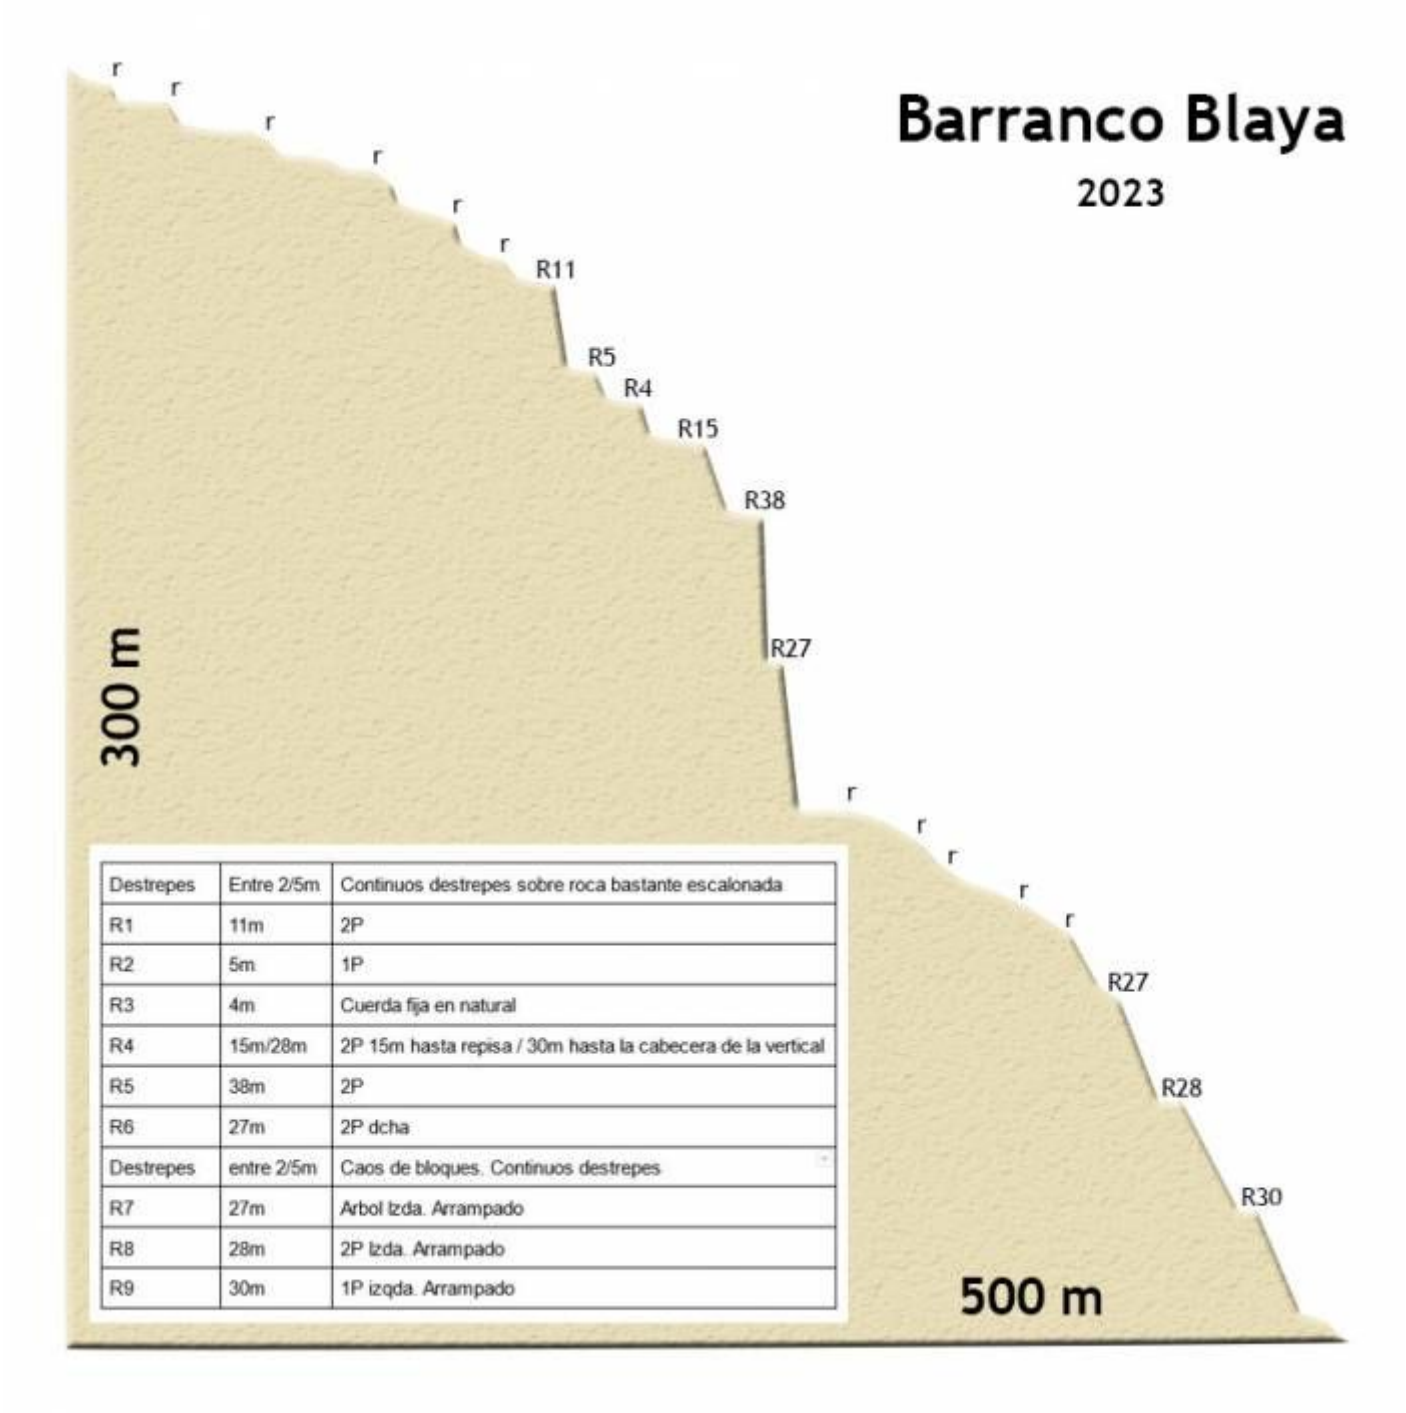

Tour: (machine translated)
The descent is a succession of pitches and some short rappels until we reach the vertical. In the first 15m rappel, with about 10m more we reach the head of the vertical with more security. It is convenient to skip the first 100/150m on the right because the first section is quite dressed.

Return: (machine translated)
Once at the river, follow it (on the left) to the picnic areas. There is an escape in the middle to get out to the road, but it is not very obvious.
