Automatisch importiert von Descente-Canyon.com für Canyon Cîme du Simon Parcouru la partie amont décrite dans le topo de Foleas . Approche en 40 min en suivant les indications du topo . Tout s’enchaîne plutôt bien , une quinzaine de cascade , équipement sur AN, on a juste posé un point sur la fin , le piton en place n’inspirait pas confiance . Bonne surprise , avec plus d’eau ca doit être vraiment top . (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/2859/observations.html)
