## **Specialities:**

## **Gear:**

## **Summary:** (machine translated)

Gorge hike in volcanic rock, hardly any slope.

## **Hydrology:**

## **Access:** (machine translated)

By ferry from Milazzo (north of Messina) to Porto di Levante on the island of Vulcano.

## **Approach:** (machine translated)

Either around the volcanic cone in a wide left turn or a traverse of the summit to then descend into the canyon beyond.

## **Tour:** (machine translated)

Gorge hike. Towards the exit then 2 rappel (5m + 15m) down to the sea.

## **Return:** (machine translated)

Several possibilities:  
\* pick up by boat (only possible when the sea is calm)  
\* leave ropes hanging from the two rappels and climb back on them  
\* you walk to the first rappel where you can see the nearby sea and then walk back (without rappelling)  
\* swim back in the sea doesn't seem a real option at 1.5 km distance.
