Access: (machine translated)
From the exit of the A27, which can also be reached directly from Belluno, take the SS50 along the Piave river heading north. Via Longarone and Pieve di Cadore we come to Lozzi di Cadore and on to Tre Ponti. About 200m before the bridge over the Piave, turn right onto the SP616 and then immediately left again under the SS52 and over the Piave. After about 1 km the tea road exits and we park our car here (P).

If we have a second car available, continue along the dirt road for about 1300 m and park the car for the exit at the end of the passable dirt road at Casera Molenies di Sopra (P2).

Approach: (machine translated)
From the parking lot P we follow the trail n. 275 in northern direction until Rio Casaviei (1460m altitude - entry).

Tour: (machine translated)
Sequence of a total of 36 rappels of different heights, running sections and passages of rappels. After the highest rappel at 40m, 4 more follow, the last of which is 20m high. Exit at the dam.

Return: (machine translated)
On the forest path back to the car.
