Summary: (machine translated) Certainly one of the highlights of the region: 2 different parts, separated by a running track. 1st part partly in the basement, 2nd part in the course increasingly narrow. Left tributary of the Esteron.		
Hydrology:		
Access: (machine translated) From Nice on the N 202 northwards in the direction of Digne. After about 17 km on the bridge Charles Albert over the Var turn left and the D 17 up to Gillette and on winding road further behind in the Esteron valley to Roquesteron (about 26 km from Var bridge). 3.5 km after Roquesteron turn left onto the D 10 and after another 3.5 km cross the bridge at the exit of the Riolan. Park the car here at the exit. With the second car, go back to the D 17 and turn left to Sigale. Go through the village and uphill in serpentines. After about 3.5 km from Sigale we pass the old arch bridge deep below us over the Riolan and 500m further we come to the upper parking lot (yellowed canyoning notice board).		
Approach: (machine translated) Straight down to the creek.		
Tour: (machine translated) 1st part partly in the basement, no rappel at normal water level. In case of much water 5 rappel. Exits with the arch bridge. Then running section. 2nd part increasingly narrower as it progresses. No too high rappel. Some slides and possible jumps after prior inspection. Water is mostly naturally turbid due to mud floats.		
Return: (machine translated) Before the road bridge right up or after the bridge right to the road.

Automatisch importiert von Descente-Canyon.com für Canyon Riolan Petit débit mais ça coule tout du long. La plupart des sauts/tob passent après avoir sondé. Ça devient vert plein d'algues sur la fin mais l'eau reste claire. Superbe encaissement (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2224/observations.html>)

Automatisch importiert von Descente-Canyon.com für Canyon Riolan Encore un tout petit peu d'eau pour cette fin de saison. Seul le dernier tiers du canyon manque clairement de débit et on évite les quelques vasques d'eau stagnante dans cette partie. Saut et tob ok. Toujours aussi beau et ludique ce magnifique canyon. Automatisch importiert von Descente-Canyon.com für Canyon Riolan Beautiful canyon, but some pools don't flow anymore. Between the Roman bridge and the next narrow no water at all. Still lots of jumps and slides possible (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2224/observations.html>)

Automatisch importiert von Descente-Canyon.com für Canyon Riolan Filet d'eau, certaines vasques ne coulent pas et d'autres commencent à sentir. Quelques pro qui nous ont indiqué que c'était la dernière fois qu'ils le faisaient pour cette saison. Sinon ce parcours reste toujours aussi beau, à faire et à refaire :) (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2224/observations.html>)

Automatisch importiert von Descente-Canyon.com für Canyon Riolan Debit qui permet encore une descente agréable mais ça ne coule plus partout. Pourtant, l'eau dans les vasques est étonnamment belle et claire. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2224/observations.html>)
