Country: España / Spain **Region:** Asturias, Principado de / Principality of Asturias **Subregion:** Asturias **Town:** Parque natural de Ponga

Difficulty: a little difficult	**Grading:** v4 a3 II	**Total time:** 4h20
Approachtime: 10min	**Tourtime:** 4h	**Returntime:** 10min
Altitude entry: 620m	**Altitude exit:** 340m	**Delta Altitude:** 280m
Canyon length: 600m	**Highest rapell:** 45m	**Amount rapells:** 5
Transport:	**Rock type:**	**Drainage area:** km²
Season: January - December	**Orientation:**	**Best Time:**
Rating: ☆ 3.4 (1)	**Info:** ★ 0 ()	**Belay:** ★ 0 ()

Specialities:

Gear:

Summary: (machine translated)
One of the great canyons of the northern zone, if we do it in its entirety we will spend almost 7 hours of activity with all kinds of rappels. The upper section, being used by canyoning companies in the area, is very well equipped, it is the easiest area with only 4 rappels and a multitude of slides. The lower zone is a succession of rappels of up to 40m, in this case a combination of cars is essential.
At the time of realizing it we will have to bear in mind that in summer its flow lowers a lot and in rainy season it can go past the water level.

Hydrology:

Access: (machine translated)
On the N625 Riaño to Cangas de Onís. At the height of Santillán pk 145 we take the detour to Beleño and Sellaño. We will go along the AS261 passing through Santovena, Sellaño, ... until we pass the pk 11. We will arrive at a small bridge over our stream. If we are going to do the integral, we will park after the bridge on the right.
Follow the road for 500m until a detour to the left to Caragas/Carangres. We go up this road for about 3kms until a right turn where we see our descent on the left, shortly before there is a lay-by on the right where we can park if we are going to do only the upper part.
We continue along the road to the entrance of the village and park.

Approach: (machine translated)
From the lay-by we climb about 500m to a path on the left that leads down to the stream,
From the village we descend 500m to the access to the same path, in this case to the right.

Tour: (machine translated)
A first part, the upper part, for all ages, with simple, short and fun rappels. Many slides and some possible jumps (check the depth of the pools).
The second part is more sporty, rappels in natural, long and slippery, in a very grassy, lush environment, in which we will think we are lost in the middle of the jungle. A pleasure in all senses if we take it with the right flow.
The succession of 4 rappels in which we will save 70m of unevenness and its long waterfall of 40m are its great strong points.

Return: (machine translated)
The first part is along a well marked path to our left that leads to the curve indicated to park the car. If we could not leave it here, we will have to go up 1km of road.
The second part, we will follow the stream to the bridge over the road.

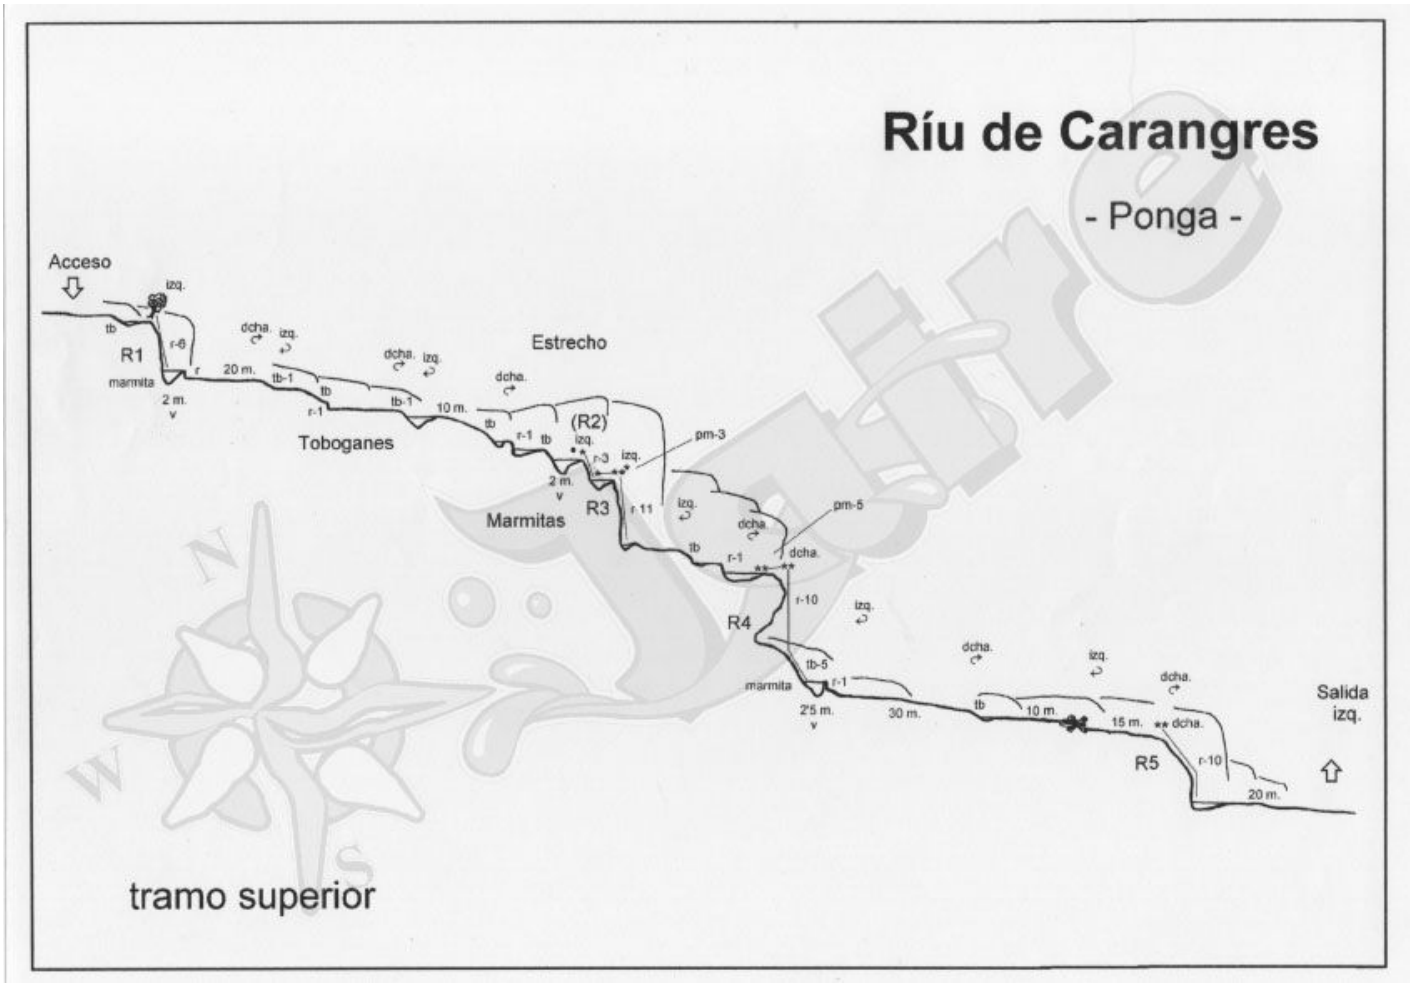

Coordinates:
Canyon Start 43.2249 -5.2016
Canyon End 43.2237 -5.2074
Parking at Entry 43.2236 -5.2015
Parking at Exit 43.2233 -5.2079
