Specialities:
§ Proscription,

Gear:
Ropes: 2x40

Summary: (machine translated)
Relatively short and not very deep cut rock gully.

Hydrology:

Access: (machine translated)
From Belluno on the SR204, later SR203 in the direction of Agordo. After 8 km And just after the village of Mas we turn left over the Fiume Cordevole. Immediately after the bridge we turn right, not towards Sospirolo, but towards Mis. In this way we reach the houses of Rosse Alte (540m altitude) and we park our car at the northwest end of the houses at the exit of the road (see also approach from Belluno or Ponte Mas in photo gallery).

Approach: (machine translated)
A path begins here - at its fork, we stay left (signpost; white-red markings) - up towards Nusieda Alta (see https://youtu.be/FRCTylLozGU). We cross the Cal San Daniel, then another ditch and stay right at the next fork in the path. The next valley cut is the Val Carpenada (entry).

Telephone reception (including internet reception) is good on the access road and at the beginning of the canyon.

Tour: (machine translated)
A total of 11 rappels. After the highest rappel (C28), exit onto a path crossing to the left. The tour exits at the Lago del Mis reservoir.

Return: (machine translated)
Around to the left, probably swimming at first; as soon as the steepness of the bank allows it, we climb up and continue steeply upwards in the forest until we reach the path that crossed the canyon after the 28m rappel. On this path to the right we come to the path that allowed us access. Follow it back to the car.

If you want to take a shuttle bus, as swimming in the pool is prohibited, you should avoid the long swim to the other side of the lake, where you may have parked your first car (Falcina camper parking lot).

Coordinates:
Canyon Start 46.1674 12.0790
Canyon End 46.1647 12.0760
Parking Entry and Exit 46.1623 12.0895
Alternative Canyon Start 46.1662 12.0771
