Hydrology:

Access: (machine translated)
Situated in Roquetes we will take the road of Els Ports that leads us to Caro.
We will not go up to the peak but we will take the Fredes track that leads to the shelter and the Cova de Avellanes. We leave behind the shelter, the recreational area of the Cova de Avellanes, soon we have a detour to the left, to the right we would go to the Gubies de Regatxol. A kilometer and a half after the recreation area we reach a fork with a track in poor condition on the left. Here we will park.
If we have two cars, the return car will take the Regatxol track and after 2.5 kms we will arrive at some tight curves linked. In the right of 180 degrees we have the exit of the ravine, we will look for a place to leave the car (We must not reach the Salt del Cabrit).

Approach:
