Transport:	**Rock type:**	**Drainage area:** km²
Season: June - August	**Orientation:**	**Best Time:**
Rating: ☆ 3.1 (1)	**Info:** ★ 0 ()	**Belay:** ★ 0 ()

Specialities:

Gear:

Summary: (machine translated)
A very fun and abundant canyon to be done in summer. 4 jumps or rappels that can be difficult due to the overflows that are formed.

Hydrology:

Access: (machine translated)
From Lourdes on the D821 to Argeles-Gazost. Here we turn off to Arrens-Marsous on the D918. Here we turn left on the D105 "Barrage du Tech" and "Chapelle de Pouey-Lain". We go up to the Gave d'Arrens where we will see a stone bridge. We park here, it is almost 5kms of road.

Approach: (machine translated)
We enter the same bridge

Tour: (machine translated)
Three rappels, the intermediate part can be skipped by means of a handrail that takes you to the final rappel after the overhangs.
If you want you can continue along the lower part of the ravine but there is nothing remarkable.

Return: (machine translated)
We turn right onto the mine road. We go up the river to the bridge

Coordinates:
Canyon Start 42.9367 -0.2356

Automatisch importiert von Descente-Canyon.com für Canyon Tech (supérieur) Très belle surprise que cette agréable descente avec ces températures, bien que courte. On se fait bien bougé au pied des rappels. Nickel pour compléter le week end au Lavedan.Petit tips: l'application "Ma rivière et moi" d'EDF donne l'état de parcours du canyon vis à vis du barrage du Tech en amont. Le canyon est indiqué sur la carte dans l'application. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/21002/observations.html)
