Specialities:

Gear:

Summary: (machine translated)
Gully of vertical progression of the river/stream that rises at the foot of the Casco de Marboré. Second descent in the route through the cirque from Sarradets through the middle terrace between the Sarradets and La Torre waterfalls. Descent for experienced people

Hydrology:

Access: (machine translated)
From Tarbes we head towards Lourdes on the N21. Then we continue towards Gavarnie-Gedre on the D821. Continue towards Gavarnie-Gedre on the D921 to Gédre and from here to Gavarnie. Almost at the entrance of the village we have a detour to the right towards the slopes. We take it and park the car back here.
We continue towards the slopes and the Col de Tentes and park the access car.

Approach: (machine translated)
Access to Sarradets, Casco and Torre ravines
Option 1 - From the Col de Tentes we go up to the Port de Boucharo and from there to Sarradets. We take the path that goes down to the cirque of Gavarnie.
Option 2 - From Gavarnie we go to the cirque and once here we take the path that goes up to Sarradets by the stairs.
Access to Sarradets, Casco and Torre ravines
For one option or another to reach the cut of the cirque, what some call second floor we go to the bottom of the cirque. The first stream is the Sarradets ravine, the second is the Casco ravine and the third is the Torre ravine.

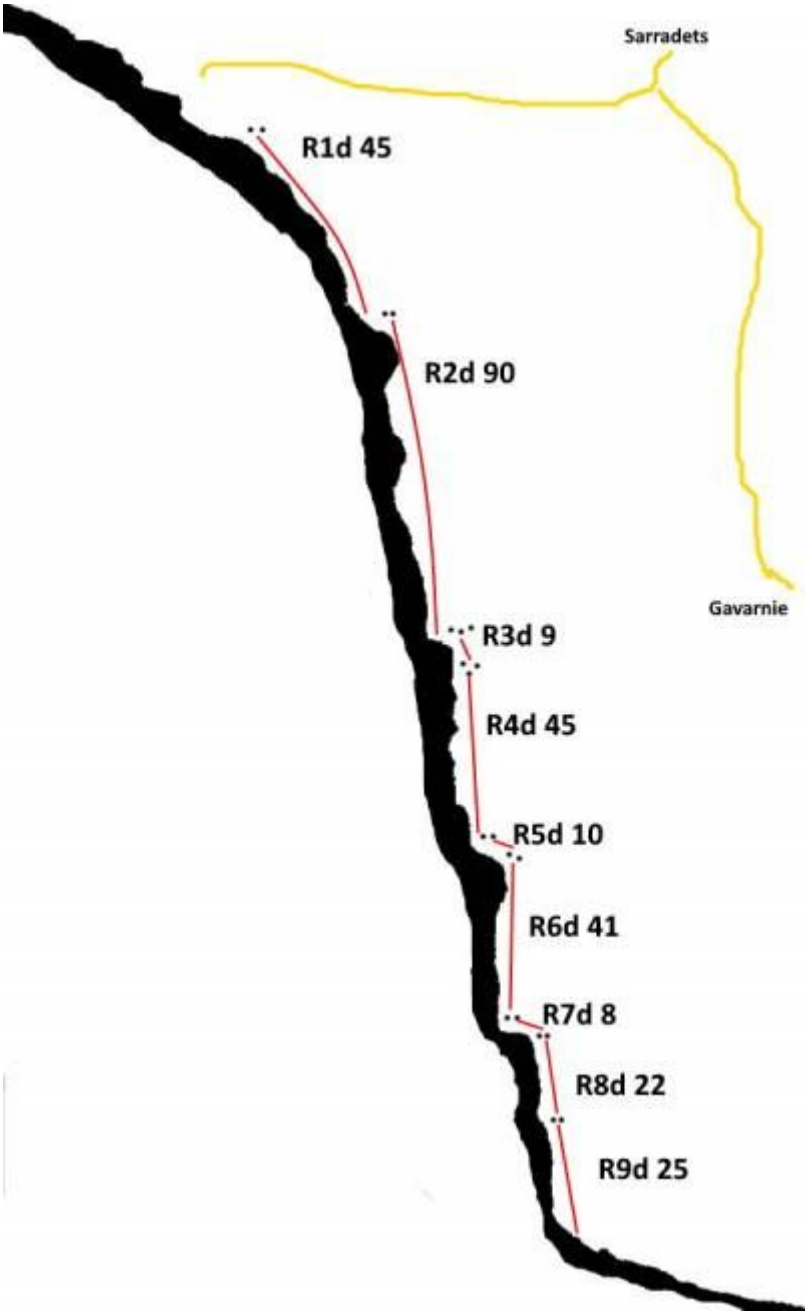

Tour: (machine translated)
Very vertical descent, with a 90m rappel and some quite exposed headwaters. Be careful with the friction and always wear neoprene because the water is very cold.

Return: (machine translated)
When we reach the bottom we will take the tourist path of the waterfall that goes down to Gavarnie.
