Summary: (machine translated)
Short but deep canyon below the Klöntalersee, one of the large reservoirs in the Glarnerland.
Three individual sections make the short canyon worthwhile.

Hydrology:

Access:

Approach:

Tour: (machine translated)
Three single points for which it is worth walking the short canyon. Otherwise more of a river walk with lots of wood. All anchors available. If there is a lot of water, the last two rappels become a challenge.
