Summary: (machine translated) Short but varied canyon, much frequented		
Hydrology:		
Access: (machine translated) From Windischgarsten, follow the road towards Hengstpass until you reach Rosenau. At the end of the village, immediately after a large timber yard, there is a parking lot.		
Approach: (machine translated) From the parking lot, follow the signposted access to the canyon. After the first steep step, do not follow the new wire rope belays into the canyon, but continue upwards - also use the path leading upwards at the next rock embrasure. Above the last rocky passages, follow the clear climbing tracks to the streambed.		
Tour: (machine translated) Very well equipped, much frequented gorge. A via ferrata (not open to the public) has recently been added through the rock faces of the gorge. In the upper part, waterfalls up to 18m, downclimbs, slides and narrow passages alternate. The exit waterfall is 40m high - the best way to leave the canyon at the bottom is with the help of an installed traverse rope - the last inclined drop is 60m long.		
Return: (machine translated) Like approach
