Create: 2023-03-09 20:54:03	**Update:** 2025-11-11 23:54:31	**Print:** 2026-10-30 02:10:31
Country: Italia / Italy **Region:** Veneto **Subregion:** Belluno **Town:** Ospitale di Cadore		
Difficulty: difficult	**Grading:** v5 a3 IV	**Total time:** 8h10
Approachtime: 2h	**Tourtime:** 6h	**Returntime:** 10min
Altitude entry: 905m	**Altitude exit:** 460m	**Delta Altitude:** 445m
Canyon length: 800m	**Highest rapell:** 95m	**Amount rapells:** 20
Transport: Car optional	**Rock type:** limestone	**Drainage area:** km²
Season:	**Orientation:** Northwest	**Best Time:**
Rating: ☆ 0 ()	**Info:** ★ 0 ()	**Belay:** ★ 0 ()

Specialities:

Gear:

Summary: (machine translated)
Vertical canyon with a final waterfall of 95m

Hydrology:

Access: (machine translated)
From Belluno or the exit of the A27 on the SS51 directly to Termine di Cadore (access 1) or in Longarone turn right on the SR251 direction Erto. Then either park the car in the 7th bend (access 2) or continue and then turn left to Casso (access 3) - see Google aerial photo in photo gallery.

Approach: (machine translated)
From parking lot P at Termine di Cadore through the Piave River and then steeply and on partially indistinct tracks up to the entry (so P. v. Duin, access 1). \n\nOr on the road Longarone - Erto in the 7th haipin bends park the car and from there on the trail 395a, später 395 and 394 to the entry (access 2, see forum entry at http://catastoforre.aic-canyoning.it/index/forra/reg/VENETO/pro/BL/cod/BL035). \n\nWith the possibility of a shuttle, one could also consider an access from Casso on the trail 394, since here the starting point is already at 950m altitude (access 3).\If a crossing of the Piave river is not possible or desirable, an access from the hamlet of Divestra, located north of Termine di Cadore, on trail 392, later 394, is also possible (access 4).\nSee the respective trail sketches in the photo gallery.

Tour: (machine translated)
Also, if you have entered the stream further up, the actual vertical gorge descent begins only at 905m. 18 to 20 rappels, the last one at 95m can be broken, see P. v. Duin and the forum entry at http://catastoforre.aic-canyoning.it/index/forra/reg/VENETO/pro/BL/cod/BL035.

Return: (machine translated)
At the footß of the C95 right and through the Piave back to the car.

Coordinates:
Canyon Start 46.2984 12.3297
Canyon End 46.3017 12.3233
Parking at Entry 46.2713 12.3297

Automatisch importiert von Descente-Canyon.com für Canyon Pissa Boucle effectuée sans navette depuis le village de davestra.Le sentier de randonnée est raide, il y a 800m de dénivellé jusqu'au départ du canyon avec marquage rouge et blanc.Équipement minimaliste et vieillissant.On a remis 1 écrou dans l'enchainement 40 sur 60, ca avait sauté avec les crues!Dans la grande cascade finale, il faut procéder ainsi pour pas galérer: R15, puis R40 pile poil depuis le relais en niche puis R40 relais chainé un poil décalé des chutes de pierres.Retour par une sente le long du collecteur en 40mn jusqu'au village. Lorsque vous traversez le champ, il faudra monter sur la colline vers la ligne électrique.Une belle et grande course, 3h à 2. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/23771/observations.html)

Automatisch importiert von Descente-Canyon.com für Canyon Pissa Itinerario che presenta soste vecchie e su ancoraggi datati e/o rovinati. Durante la ripetizione abbiamo cambiato qualche vecchio cordone e aggiunto degli spit del 10 su alcune calate che risultavano pericolose. Nel tratto finale abbiamo aggiunto una sosta di frazionamento (della calata di 90m) sulla sinistra idrografica questa permette di calarsi su due nuovi spot del 10 e lontani dal flusso della cascata. Per una ripetizione consigliato portarsi un tassellatore e degli spit! (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/23771/observations.html)
