Specialities:

Gear:

Summary: (machine translated)
A wonderful environment, crystal clear waters and the possibility of thousands of jumps. If that is not enough, its rappels of up to 35m will delight everyone.

Hydrology:

Access: (machine translated)
We have to go to Tourón, for this we take the A52 to Melón. Here we take the detour to Tourón. In a sharp bend to the right before reaching the village we will see a track that goes downhill to the right. We take it and go to the waterfalls.

Approach: (machine translated)
Once parked we see a path that goes straight ahead and crosses the river. We climb up the path next to the ravine almost to some pine trees and then keep the height until we enter the ravine.

Tour: (machine translated)
We start with a jump to chain 3 rappels. We continue through the chaos of blocks with small jumps. Finally we reach the set of waterfalls where the canyon ends.

Return: (machine translated)
We go out to some footbridges that we have to follow to the trail.

Automatisch importiert von Descente-Canyon.com für Canyon Cerves (superior) Départ 15h ce jour, chaud mais avec le vent ça va.Dans la forêts de chêne j’ai pris à droite au niveau de la ligne droite quand c’est plat, un caillou sur la gauche semble marqué le départ de la « piste » qui part à droite. On trouve le lit du Rio assez rapidement mais faut faire un peu le sanglier (peut être j’étais pas sur le bon chemin) Dans le canyon RAS, c’est beau et vert. À faire avec plus d’eau sans doute pour profiter pleinement du potentiel.La C37 je suis parti sur 2 points un peu plus bas que la fin de la main courante. J’ai pas poussé après la passerelle. Canyon agréable. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/23618/observations.html)

Automatisch importiert von Descente-Canyon.com für Canyon Cerves (superior) Beau canyon, assez ouvert dans une belle nature, c'est sympa! Eau limpide Équipement béton, ça se voit qu'il est fréquente par des groupes mais pour la dernière cascade, les plaquettes ont été enlevés (acte délibéré ou vol ??) il reste néanmoins les deux points du départ d'une MC RG, je suis descendu là dessus Étrange .....
