Summary: (machine translated)
A beautiful granite canyon with stunning natural formations—some of which are quite aquatic—featuring 5 rappelling points, several jumps, and slides; when the water level is high, the first C22 can be very challenging. When near the village, please limit whistling to only what is absolutely necessary (the residents appreciate it).

Hydrology:

Access: (machine translated)
From Biasca drive in the direction of Bellinzona. At the main road near Iragna turn right and park at the large parking lot at the beginning of the village (sports field).

Approach: (machine translated)
From the parking lot walk in the direction of the village center/bridge. Then left along the creek --> after the barrier you can see the last rappel (water level control) --> on the left side you pass the material ropeway --> hiking trail up past the back of the houses --> hiking trail goes over small stone bridge --> signposts --> small House --> stone steps with railing --> iron gate --> chapel --> leave hiking trail at the right bend at approx. 450Hm --> left narrow path down to the creek --> right past the rock (put on harness for rock) --> ahead to the tree --> from the tree 6m rappel (entry 420Hm).

Tour: (machine translated)
From the beginning you already have a very impressive view --> the first small pool you can slide (depending on gravel or stones) --> then follows immediately the approx. 40m waterfall (very slippery and sharp edges). This place can also be rappelled left 45m (!) outside the water (reachable via rope traverse) --> two short slides (flat) --> C22m downclimb (can also be rappelled outside the water) --> downclimb --> stone bridge --> short rappel or jump (5m) --> narrow channel (! Slippery) --> downclimb right about 20m (final part can also be rappelled) --> downclimb --> 2m downclimb right --> jump 6m (or rappel) --> final waterfall about 15m (very slippery, sharp edge) --> depending on the depth of the gump the last 2 places can also be rappelled (also possibility to rappel).

Return: (machine translated)
Exit directly at the starting point (who wants to jump a bit can do this at the end right of the rock (swimming possibility).

Automatisch importiert von Descente-Canyon.com für Canyon Iragna (inférieur) Intermédiaire + inférieur Attention on a très envie de sauter dans la vasque juste avant le grand rappel de 40 au début de l'inférieur mais ça ne passe pas du tout -> rappel sur amarrage naturel, arbre rive gauche Le Toboggan 17 de la fin passe super, on a juste commencé avec 5m de corde puis ça glisse sur le reste. Water level is on the low side for Iragna. Completely drained; superiore, middle, and inferiore sections. A bit slippery in the superiore section. Still lots of fun, though. All anchor points are okay. (machine translated)
