Automatisch importiert von Descente-Canyon.com für Canyon Saratze Il faudrait vraiment repenser l’équipement: Davantage de mains courantes pour des relais mieux positionnés... (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/2969/observations.html)

Automatisch importiert von Descente-Canyon.com für Canyon Saratze Équipement vieillissant mais correct sur AN et spits. Il y avait de l'eau. Technique et sportif. Ne connaissant pas le canyon et l'eau nous barrant la vue on s'est demandé s'il n'y avait pas un relais dans la C45. Mais non, on descend d'une traite sous rappel arrosé. On revoit le premier qui descend lorsqu'il arrive au relai de Olhadubie. Ce relai permet de faire un débrayable du bas. Sinon ne pas prendre le relai et aller direct en bas. Fait avec cordes de 70m et 40m (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/2969/observations.html)

Automatisch importiert von Descente-Canyon.com für Canyon Saratze Équipement vieillissant mais vraiment un chouette canyon. On a changé quelques sangles et bouts de corde. Pas trop glissant pour une fois. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/2969/observations.html)
