Summary: (machine translated) Open rappel canyon in conglomerate		
Hydrology:		
Access: (machine translated) We leave the AP-7 - Autopista del Mediterráneo, Tarragona to Valencia - just before reaching the Ebro and take the C-12 northward to Tortosa (not quite 20 km to the city center). In the town we continue on the C-12 northwards in the direction of Lleida About 3 km after the town of Xerta (and 14.5 km after Tortosa - center) we turn left on the N-230b in the direction of Gandesa. After another 7.2 km we turn left again onto the T-333 towards Valderrobres. Not quite 14 km after the last turnoff, we come to a T-junction where the T-334 turns off to the right in a northerly direction towards Horta de Sant Joan. We continue for another 5.5 km on the T-333 and then turn left to the village of Arnes. Here we look for the way south - there are several possibilities - towards "Toll de Vidre". After 4.1 km we come up to the Coll de la Creu (590 m above sea level) and park our car here.
