Did the canyon yesterday, nice water flow. At the beginning you do doubt if there is bracing, but it is there where you really need it, the chain on the wall hook is completely worn in though and in my judgement not to be used. Are some jumps in there that are doable. Park your car in the village, get in via the "tourist" trail, the entry is under the highway. For the exit there is a set of stairs under a bridge on the right side. (machine translated)
