Transport:	**Rock type:**	**Drainage area:** km²
Season: January - December	**Orientation:**	**Best Time:**
Rating: ☆ 0 ()	**Info:** ★ 0 ()	**Belay:** ★ 0 ()

Specialities:

Gear:

Summary: (machine translated)
It is necessary to inform the managing body that the activity is going to be carried out
https://montanaregulada.org/area/barranco-de-aguake
Simple descent with only 3 rappels but with two beautiful waterfalls.

Hydrology:

Access: (machine translated)
We must be located between Antoñana and Sabando.
On the A132 between Maetzu and Santa Cruz de Campezo, at p.k. 34, we have the village of Antoñana. 34, we have the village of Antoñana, we enter it and head north along Arrabal street to exit on the road up to Sabando. After 5kms we arrive at the mill of Oteo, a track on our right that goes to Oteo allows us to park.

Approach: (machine translated)
We continue along the road for a few meters until we pass the mill cut, here we enter the riverbed.

Tour: (machine translated)
Just above the cut of the mill we have a tree from which to rappel, we pass the mill and under the road, we will have to leave the riverbed through the fields (careful not to spoil anything) and after 300m we return to the riverbed. We will find a small rappel to get into the boxed area and reach the Aguake waterfall.

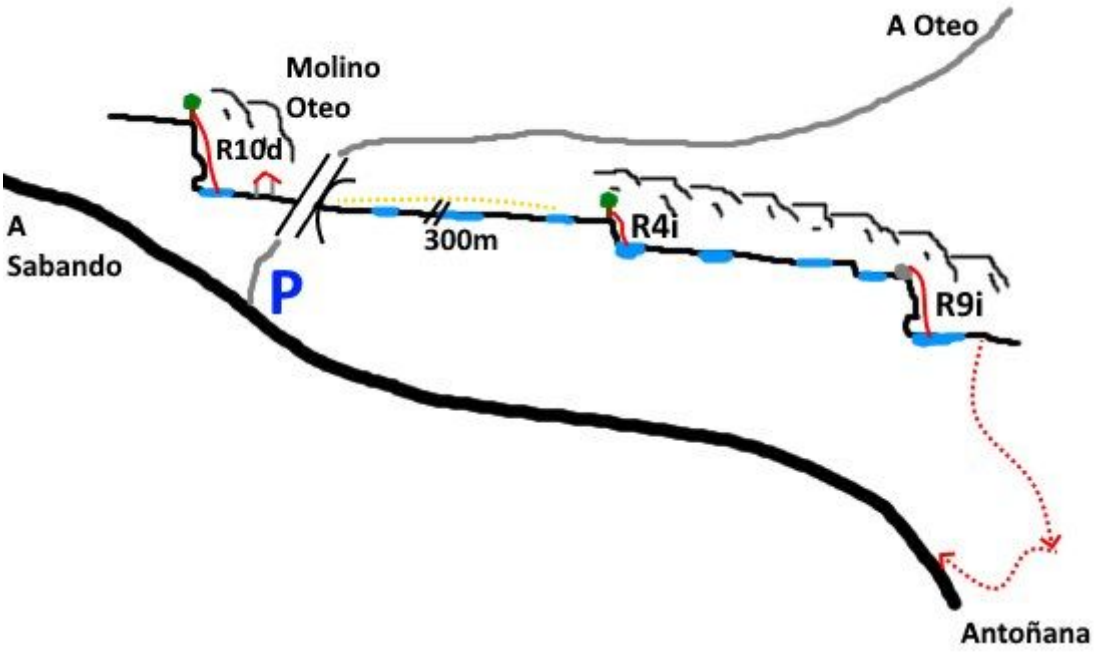

Return: (machine translated)
After the waterfall we turn right onto a path that leads us up to the access road, we will follow it to the parking lot.

Coordinates:
Canyon Start 42.6933 -2.3964
