Specialities:

Gear:

Summary: (machine translated)
Ravine with little water that flows into Pedras on its orographic right. Simple rappels in the form of a slide.

Hydrology:

Access: (machine translated)
By the AG11 we will leave in O Pobra do Caramiñal.
We will go to look for the DP-6702 to Aldea Vella and the natural pools of the Pedras river.
We park at the end of the road in the designated area.

Approach: (machine translated)
We will leave by the track on the left that, shortly, leaves us on a Roman bridge over the river. Just after crossing, we take the path on the left leaving behind the pools to the head of the Pedras ravine, cross the bank and go up the slope to find a track at the top that we will follow to the bed of our ravine after passing the power line.

Tour: (machine translated)
Open, simple, all the rappels are in ramp, making a slide.
Caution with the flow of Pedras at the confluence of both.

Return: (machine translated)
Mismo de Pedras
