Automatisch importiert von Schlucht.ch für Canyon Golitschebach, Wasserstand: "tief" Verankerungen: "gut" Beim C45 im eingeschnittenen Teil ist ein Haken leicht verbogen, ansonsten alle Installationen gut. Es hat stellenweise Baumstümpfe in der Schlucht. (Quelle: https://schlucht.ch/schluchten-der-schweiz-liste/1070-golitschebach)

With Jenny, Damian, Maik, Samuel The start is higher than indicated. See the purple dot in the picture. When rappelling from the last ledge, there are two more belay stations below, at approximately 10 m and 15 m (the latter is better for pulling the rope down). (machine translated)
