Transport:	**Rock type:**	**Drainage area:** km²
Season: January - December	**Orientation:**	**Best Time:**
Rating: ☆ 0 ()	**Info:** ★ 0 ()	**Belay:** ★ 0 ()

Specialities:

Gear:

Summary: (machine translated)
Nice water canyon, short, fun and very well formed. A pity it is not longer to have more substance!
In the rainy season, be very careful!

Hydrology:

Access: (machine translated)
On the A7 exit Alcoy and CV70 to Benilloba.
Once on the CV70, just in the pk 7 (almost arriving to Benilloba), we will take the detour to the left by the CV790 to Cocentaina. After a kilometer and a half we take the small road to the right to Benilloba and pass the bridge, soon we have the detour to the left to the parking lot.

Approach: (machine translated)
We go straight ahead on the path at the bottom of the parking lot with the ravine on our left, we will see the first mill below and then the bridge, cross it and leave the path to go left towards the mill. There is an installation on the wall

Tour: (machine translated)
From this facility we can rappel or do a 40m zip line.
We will have an area of slides and possible small jumps until we reach the pool that gives access to the final rappel of 22m.
Caution here with high flow, you must mount the handrail to access the rappel facility. In the rappel we cross the vein and we are below the waterfall, from where we can pick up the rope.

Return: (machine translated)
After the rappel we will exit to the left through the poplar grove on a path that leads to the bridge. From there we undo the access road

Coordinates:
Canyon Start 38.7080 -0.3970
