Specialities:

Gear:

Summary: (machine translated)
Spectacular vertical canyon, only for experienced people.
To be completed

Hydrology:

Access: (machine translated)
Situation bcos Negro, Meca, Perro, Culogalina, Quebrada and Magaz.
We will need two vehicles, the return vehicle we will leave it following the GC60, in the pk 23 we find the detour to the GC654 to Risco Blanco and Agualatente. A kilometer and a little further on we have a sharp bend over the Aguas Tunte river and a place on the right to leave the vehicle.
Accesses to the bcos Negro, Meca, Perro, Culogalina
With the access vehicle we will go to Ayacata, to the pk 14,3, to locate the detour to the right by the GC600 to Roque Nublo, just in the pk 9 we have a place to park.
Another option is to go from the peak of Las Nieves.

Approach: (machine translated)
By the path that goes south, to the disgorgement of the Hornos. We will continue along the path heading south with the bco Negro on the left and about 500m after the cut we will take the path that goes to the left towards the cut of Los Gatos.
If we go from the peak of the Nieves it will be a crossing with less unevenness over the open cuts to the south until the disgorgement of the Gatos.
In both cases we will head to the SE in search of our bco

Tour:
Ver topo

Return: (machine translated)
We leave to the left towards the Aguas Tunte water bank, once here we will follow a small path that descends to the road.
