Summary: (machine translated)
Copied from the lower Rettenbach:
You can divide the canyon into an upper and a lower part:
Upper part: from the settlement of Mayrhofen to the road bridge of the B161.
Lower part: from the road bridge to the Rettenbach settlement.

The upper part can be skipped: lots of walking terrain and few to hardly any interesting spots.
There are several abseiling points in the lower part, but overall the canyon is more for collectors.

PS: There was a flood in 2024 that left a lot of wood in the canyon. No information on the current condition.
