Transport:	**Rock type:**	**Drainage area:** km²
Season: January - December	**Orientation:**	**Best Time:**
Rating: ☆ 0 ()	**Info:** ★ 0 ()	**Belay:** ★ 0 ()

Specialities:

Gear:

Summary: (machine translated)
Dry canyon with very short approach and returns. It does not contribute much except for its 25m rappel, after which it is recommended to leave the canyon. Quite old facilities.

Hydrology:

Access: (machine translated)
We must get to Villafranca del Cid.
From the village we take the CV15 towards Castellón, at the exit just at the sign at the end of the village we go to the right on an unpaved "street" that passes behind a furniture factory, after 100m we have a crossroads and we do it to the left. We continue along this road for about 200m and after the fork in the road we park on a side where we do not disturb the traffic.

Approach: (machine translated)
We continue straight ahead along the azagador road with the cuttings on the right. The road will turn right but we continue straight ahead between plots until it takes us to the ravine.

Tour: (machine translated)
Dry except if it is raining, after the 25m rappel it is better to get out because there are only brambles, a couple of ledges and some pitfalls that are not avoidable.

Return: (machine translated)
We leave to the right looking for animal trails that lead us to the access road.
