Specialities:

Gear:

Summary: (machine translated)
Long descent with plenty of rainfall.

Hydrology:

Access: (machine translated)
Location of Ferreiriño and Regueiro Seco ravines
On the LU651 towards Folgoso do Courel, before reaching the Alto do Boi at pk 9 we have the detour to Campodola.
We can park at the entrance of the village or in Leixazos but the descent is longer.
The return car will be left in Barxa.

Approach: (machine translated)
Access Ferreiriño and Regueiro Seco
From Campodola by the path that goes down to the river. Better option than from Leixazos that can make the descent too long.

Tour: (machine translated)
Long descent with many horizontal sections with nothing in particular. The rest of the time it is a magnificent canyon, very dense, beautiful and with great flow after rains.

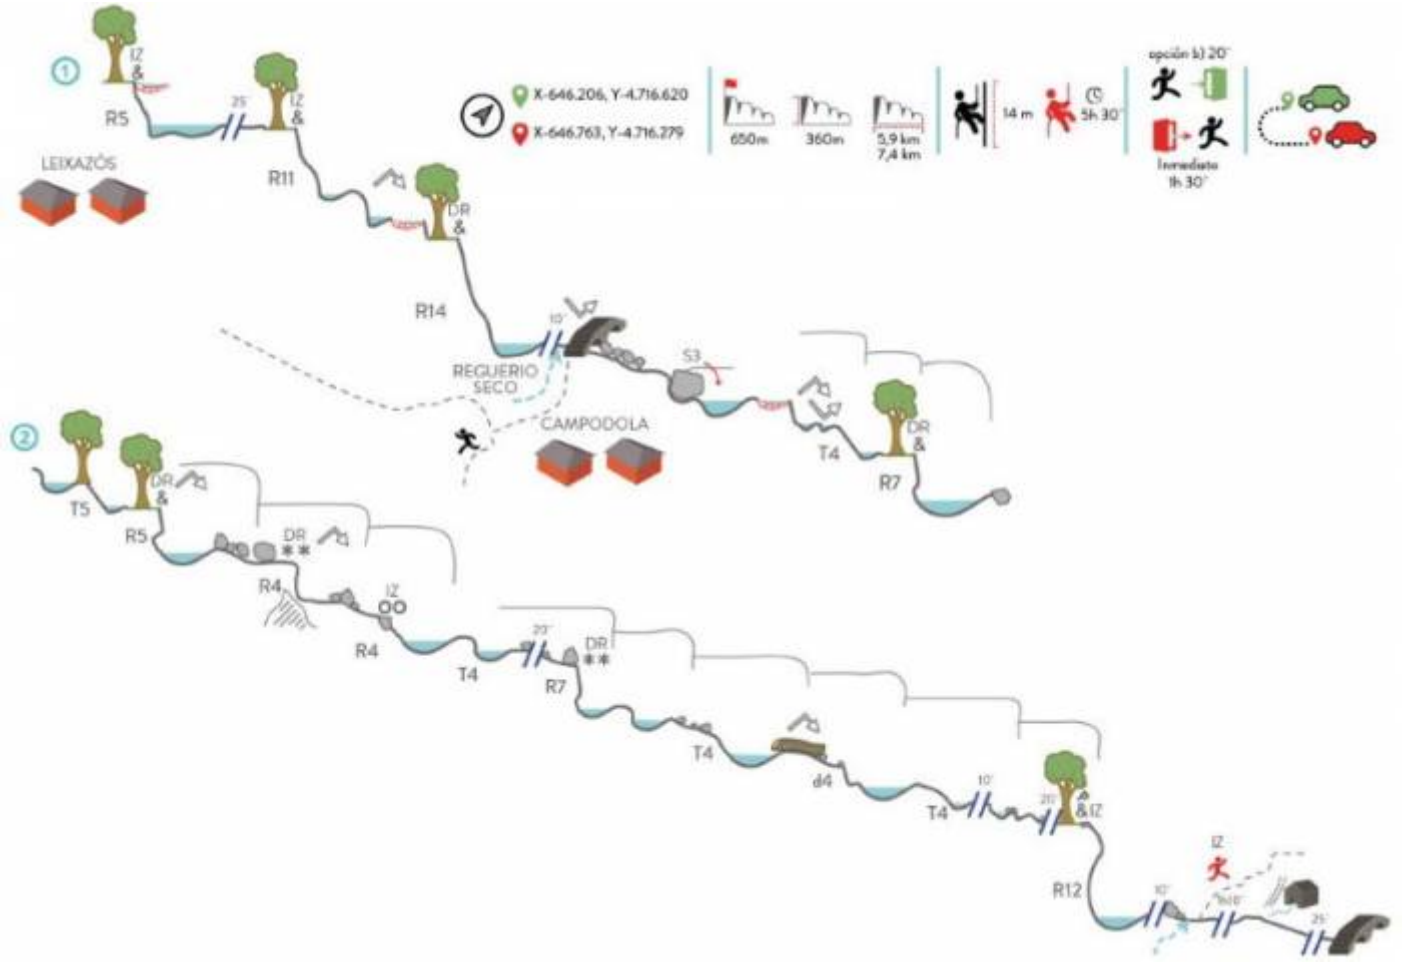

Return: (machine translated)
After the last rappel we have almost two hours of walking both along the river and the parallel trails on the left side of the river bed.

Coordinates:
Canyon Start 42.5544 -7.1639
