| **Rating:** ☆ 0 () | **Info:** ★ 0 () | **Belay:** ★ 0 () |

**Specialities:**

**Gear:**

**Summary:** (machine translated)
Nice descent parallel to the Infiernos, without water, but with unique formations.
Permission must be requested http://www.cabtfe.es/portalcabtfe/index.php

**Hydrology:**

**Access:** (machine translated)
Bcos Adeje area
We are located in the south of the island, in Adeje.
By the south freeway or TF1 exit 81 to Los Menores. We will follow the service road to the traffic circle that leads to C/ Atalaya where we will go up to the next traffic circle, we will continue straight ahead, going up the Camino de las Moraditas.
About 300m after the traffic circle, the road has a left turn with a track on the right that is closed, here we leave the return vehicle.
With the access vehicle we will continue to Las Moraditas, from here by the Camino de la Suerte Arriba we will go up to La Quinta and its hermitage, parking there.

**Approach:** (machine translated)
From the chapel leaves the local trail PR-TF-71.1 to Boca del Paso and its paragliding area. We will walk along this path for more than a kilometer to a small ravine with a couple of solitary pines on the main riverbed of the Torres, an area where we will go down to a small ravine.

**Tour:** (machine translated)
See mole

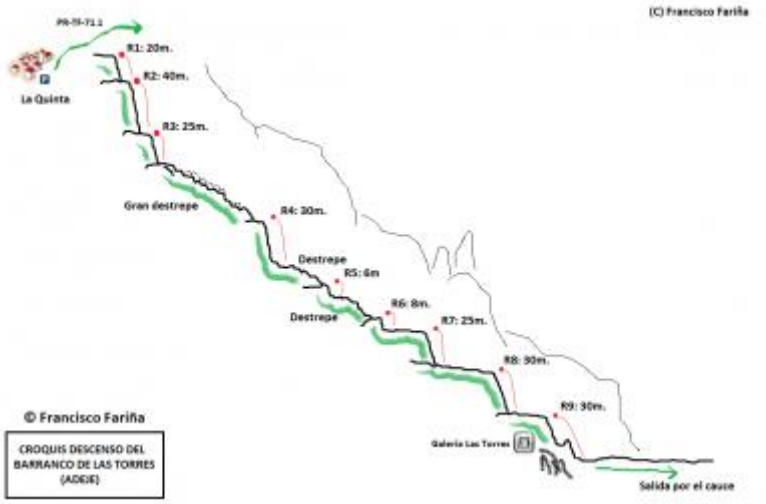

**Return:** (machine translated)
The last rappel, next to the gallery of the Towers, leaves us in a dam that, in the rainy season, may have water. We will leave by the path to the right and that leads us to the track where we have parked.

**Coordinates:**
Canyon Start 28.1279 -16.7428
Canyon End 28.1322 -16.7380

**Reports:**
