<b>Summary:</b> (machine translated) Initially incised but still sunny canyon, then succession of waterfalls in the more open terrain.		
<b>Hydrology:</b>		
<b>Access:</b> (machine translated) A23 until Pontebba exit. Go down the Canal Valley to Chiusaforte. Before reaching the village, turn left into the Raccolana Valley. Follow the road through a tunnel and continue until you see a transformer station on the left. Then cross the bridge and about 50m after that you will find a small parking area on the Rio Rivis (next to it there is a small concrete building of unknown purpose). If you cross the Raccolana a second time you have gone too far.		
<b>Approach:</b> (machine translated) At the parking lot there is a thin but clear climb that leads steeply uphill between Rio Rivis and Rio Costa Stretta. Just before the entry into the Rio Rivis cross right towards Costastretta. Just before reaching the streambed, turn left uphill and cross under the walls until you can descend into the streambed. Alternatively, you can briefly follow a serpentine trail downhill and reach the canyon under a waterfall of about 30m over a grassy band.		
<b>Tour:</b> (machine translated) First in narrow but sunny gorge over several rappel down to 27m. Fuses were already in need of renovation in 2018. In the open part afterwards three more rappel before you are back on the road. There are a few mini slides and one low possible jumps. \n		
<b>Return:</b> (machine translated) Shortly up the road to the parking lot

On the first three rappels, singles would need to be dubbed and small rapid links replaced. After a few minor rappels the new Austrian chains appear and persist until the exit. Continuous gorge far more challenging (and long) than the Ravis. For the approach, the traverse to the Costa Stretta, just before reaching the Ravis bed, is well-trodden, although it has no blue bolts. After 100 meters of traverse climb steeply to the left in a zig zag, also beaten, and pass a cavern (tributary from right bank Costa Stretta) and then hold the ledge slightly uphill until you reach the bed, the beginning of our descent. Pollution none. (machine translated)

New high standard chains on some belays, great choice for a high water level in this area.
