2025-10-25   System User   📖 ⚓    Automatisch importiert von Schlucht.ch für Canyon Ria de Carnac, Wasserstand: "Mittel" Verankerungen: "Ok" Rutschig. Empfehlung: Oberen Teil auslassen und beim ersten Haus auf dem Hinweg den Wegspuren zum Bach folgen. So verpasst man 2 Abseiler und viel Bachwandern. 2025-10-25   Bina   ★★★★★ 📖 ⚓ ☆   🌊 Normal   👍 Completed Surprisingly much water, although the other streams have little water. Got in at the confluence of the two streams. However, the canyon is only worthwhile from Mondan onwards. Set a total of 3 anchors. (machine translated)					
2024-09-12   Nico Schneider   ★★★★★ 📖 ☆ ⚓ ☆   🌊 Normal   👍 Completed All anchors available. Although other streams in the area have little water, the canyon has a sporty water level. The water is also pooled at some rappels and therefore has a lot of pressure. Good abseiling technique required. Very slippery. (machine translated)
