| 2025-10-25 System User 📖 🔗 Automatisch importiert von Schlucht.ch für Canyon Ria de Carnac, Wasserstand: "Mittel" Verankerungen: "Ok" Rutschig. Empfehlung: Oberen Teil auslassen und beim ersten Haus auf dem Hinweg den Wegspuren zum Bach folgen. So verpasst man 2 Abseiler und viel Bachwandern. | 2025-10-25 Bina ★★★ 📖 🔗★ 🌊 Normal 👍 Completed Surprisingly much water, although the other streams have little water. Got in at the confluence of the two streams. However, the canyon is only worthwhile from Mondan onwards. Set a total of 3 anchors. (machine translated) | | |
| 2024-09-12 Nico Schneider ★★★★ 📖 ★ 🔗★ 🌊 Normal 👍 Completed All anchors available. Although other streams in the area have little water, the canyon has a sporty water level. The water is also pooled at some rappels and therefore has a lot of pressure. Good abseiling technique required. Very slippery. (machine translated) | | |
