Access: (machine translated)
We have to be located in Escaladei, in the Montsant mountain range.
Leaving Reus on the N420 and turn right onto the C242 to Alforja. We will continue along this road until p.k. 48.7 (Venta de Pubill) where we turn left onto the T702 to Poboleda.
After 11kms turn right to Escaladei and Cartoixa d'Escaladei. We will go up to the monastery and continue along the track that goes up to the cingles. We will reach a fork and we go left following the GR, at a given moment the track turns north, we find some fields and a sharp turn of the track to the south, we will be in the Mas de Forçans. We parked

Approach: (machine translated)
We go around the crop fields to go towards the riverbed, we will follow it for a while until it starts to get thicker, when the descent really begins.

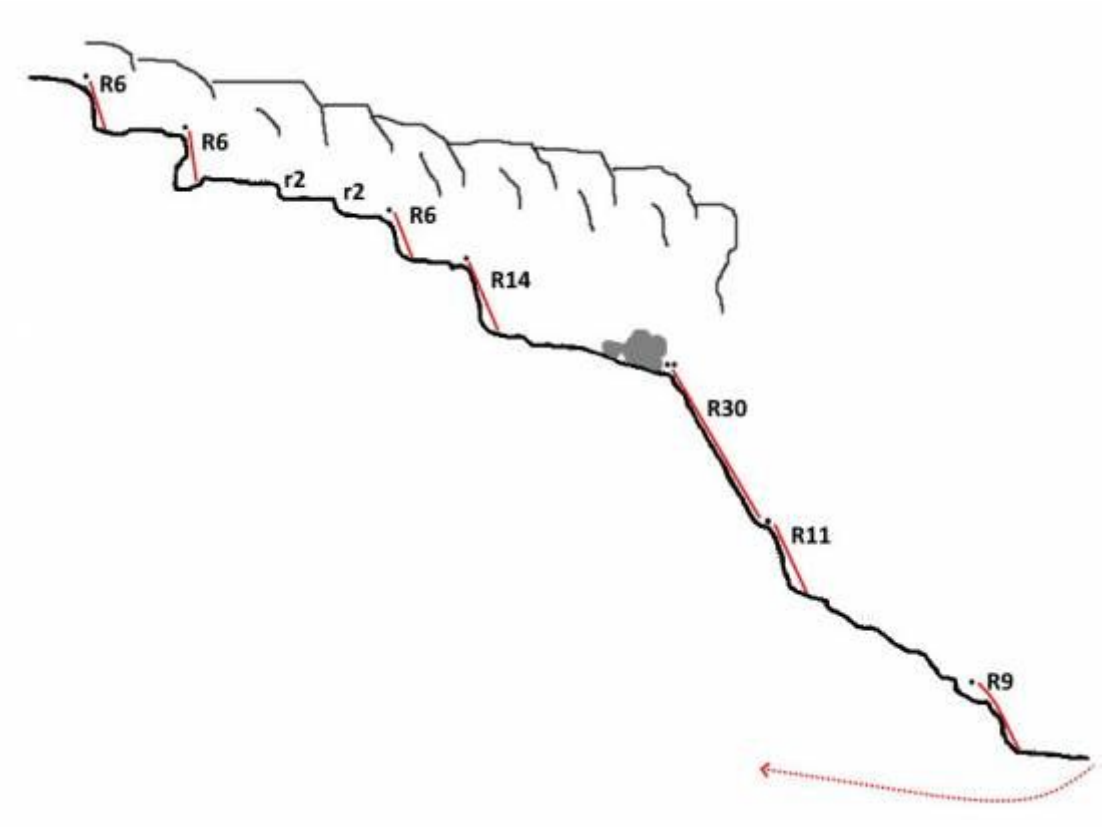

Tour: (machine translated)
A small gorge without steep slopes up to the final jump, with two chained rappels.

Return: (machine translated)
After the last rappel we will have to continue along the bed very dressed and throw us to the right to climb climbing in search of the path of Grau del Pi. From there to the track and follow it to the north.
Another longer but simple option is to go left towards the path of the Barranc de l'Aliga ravine and then climb up some zetas to the access track.
