Hydrology:

Access:

Approach:

(machine translated)
We walk along the Moinho path, after 500 m two interconnected bends and a path with a marker on the left. We take it and continue climbing gently until, at about 850 m, it crosses another path that descends. We will follow it (left) making a bend and approaching the river. After a few linked bends, we take a path to the right that leads us down to the river

Tour:

(machine translated)
A small rappel to reach the 44 m overhang, followed by another of six rappels to exit with the 5 m overhang.

Emergency exits: Difficult, but possible

Return:

(machine translated)
We go out to the left and take a small path that leads us to a road. When we are just below Xertelo, there is a path on the left that leads up to the road and from there into the town.

Poco da Moura and the big pools are great, but getting in and out is a real pain. Bring your own machete.
