Hydrology:		
Access:		
Approach: (machine translated) We walk along the Moinho path, after 500 m two interconnected bends and a path with a marker on the left. We take it and continue climbing gently until, at about 850 m, it crosses another path that descends. We will follow it (left) making a bend and approaching the river. After a few linked bends, we take a path to the right that leads us down to the river		
Tour: (machine translated) A small rappel to reach the 44 m overhang, followed by another of six rappels to exit with the 5 m overhang. Emergency exits: Difficult, but possible		
Return: (machine translated) We go out to the left and take a small path that leads us to a road. When we are just below Xertelo, there is a path on the left that leads up to the road and from there into the town.
