Rating: ☆ 0 ()	**Info:** ★ 0 ()	**Belay:** ★ 0 ()

Specialities:

Gear:

Summary: (machine translated)
Canyon less, 3 rappels without more, nice with water but to combine with some more in the area.
To complete

Hydrology:

Access: (machine translated)
From Burgohondo or Mijares going up the Pto de Mijares.
Location of Majadas Viejas, Chorros and Navalayegua ravine.
We will pass the pass and descend towards Villanueva de Ávila. We will be able to park after km. 10, in the left curve, at the end of it there is a place on the left (parking Chorros).
Another option is to park on the track 300m before on the left.

Approach: (machine translated)
Accesses to Chorros and Navalayegua ravine
We will leave by the mentioned track in direction SW, soon there is a crossroads, by the right (North) we will return, we continue straight direction SW by the orographic left of the Arr Chorros towards Los Colladitos (it is possible to park here if we make combination of vehicles). When arriving at that hill we leave the main track to go to the NW now already in direction to the creek, we surround a farm and we go to the north parallel to the creek until arriving to the rocky area, moment to access to the creek.

Tour:
-

Return: (machine translated)
At 1200m altitude we have a track on the right, we go up to take it and follow it. We will have first a track on the right that goes down the slope and then another on the left, in both cases we continue straight ahead until we find the access track.
