<b>Summary:</b> (machine translated) Hard access canyon, vertical descent, quite difficult and slippery. Normally it is dry so we can do almost all year round.		
<b>Hydrology:</b>		
<b>Access:</b> (machine translated) We have to go to the tunnel of Bielsa, for it we arrive to Ainsa and take the A138 towards France or from France by the D929 going up by St Lary-Soulan. In the pk 88,5 we have the bridge over the Barrosa river, we can park here.		
<b>Approach:</b> (machine translated) From the bend there is a path to a footbridge to cross the stream of Pinarra. We will go up the orographic right of the stream to the confluence with our ravine. We will see a rocky area on the orographic left, here we must climb. At the end we reach some pine trees where we turn left to take a channel and a ridge southwest towards the ravine. We will find a cairn indicating the access point.		
<b>Tour:</b> (machine translated) Magnificent 100m vertical that after a few days of rain we will be able to catch with water.		
<b>Return:</b> (machine translated) When we reach the Pinarra stream, we will undo the uphill path.
