Rppel canyon in conglomerate

**Hydrology:**

**Access:** (machine translated)
From Bierge, on the southern edge of Sierra Guara, towards Rodellar. At km 8, park car under a large tree (the same place as the access to the Bco. Cueva Cabrito).

**Approach:** (machine translated)
Either the ascent path of the Bco Cueva Cabito down and in the Estrechos de Balcés a piece upwards or the ascent path of the Xuncar down and in the Estrechos a piece downwards - until then about 1 hour each (see sketch at http://mb16.club.fr/CANYON/SecteurIsuala/Cautiecho/CadreCaut.htm ). Recommended as an access route is the Bco. Xuncar (Juncar) - 2 hrs., max. rappel 18 m - which enters the Balcés opposite the mouth of the Cautiecho, there about 30 m downstream and then more or less pathless up to the 'Brujas' - another 3/4 hrs.The ascent route from the Balcés is the same for all variants.Entry at the 'Brujas' is expedient, since the Cautiecho further above does not offer too much.
Also an access from the exit of the Balcés Oscuros on a hiking trail is possible. Return then in the Balcés Estrechos upstream (For this variant see gallery).

**Tour:** (machine translated)
If you have the rare good fortune to be able to walk the Cautiecho with running water, you should pay special attention to guaranteeing the rope retrival during the magnificent 40 m rappel, as the chain anchor is designed for dry conditions.

**Return:** (machine translated)
Either the Xuncar ascent trail or the Cueva Cabrito ascent to the car (about 1.25 hrs.).

Automatisch importiert von Descente-Canyon.com für Canyon Cautiecho Fait intégralement. La partie supérieure n a pas trop d intérêt : accès difficile, équipement vieillissant et progression à travers la végétation.La partie après la passerelle est par contre très jolie avec ce superbe rappel de 40m.Retour par le balcès aucun problème. Although already walked 4x on this access route, this time lost in the maquis (double access time). Stands ok, but better not take the stand under the bridge, but the loops on the bush. On the ledge, for safety's sake, rappel.photos: Werner Vogel (machine translated)
