Gear:
Ropes: 1x30m

Summary: (machine translated)
Rppel in a comparatively open conglomerate canyon.

Hydrology:

Access: (machine translated)
From Huesca 7km on the N 240 in the direction of Lleida, Barbastro; here turn left, past Loporzano and over Barluenga, partly on newly developed road in the direction of San Julian de Banzo. At the first houses, the road curves to the right and returns to its pre-expansion state. A little later it crosses the valley floor in a sharp left turn. About 20 m after the bend, follow the signs 'Val d'Onsera' - 'Hermitage ...' on dirt roads northward again to the designated parking area.

Approach: (machine translated)
From the parking lot follow the signpost to the Val d'Onsera. We reach the streambed, but soon abandoned again in a northeasterly direction. At forks in the path we stay left, make a small climb with rope belay (alternatively at fork right) and arrive at a wide yoke that opens the view to the upper Val d'Onsera, but also to many vultures. We descend on the other side to the hermitage and look at the waterfall, which here pours down on a rock (also canyon-like walkable:

Tour: (machine translated)
9 rappel, some rappelable.

Return: (machine translated)
At the bottom of the streambed out of the valley, later we meet the approach path here and then follow it to the car.

Coordinates:
Canyon Start 42.2584 -0.3358
Canyon End 42.2495 -0.3362

Automatisch importiert von Descente-Canyon.com für Canyon San Martin de la Val d'Onsera Toujours aussi beau randonnée et descente. Montée par la vineta 1h45. La descente câblée vers l'ermitage est bien pratique,avant c'était plus délicat.Descente en partant de l'ermitage 1h45 à 2 h à 2. Au début desescalade avant d’atteindre le premier rappel équipé.. un débit correcte commence à la résurgence.nous étions en short et top. Eau jusqu au cuisse au maximum.Équipement RAS (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/2811/observations.html)

Automatisch importiert von Descente-Canyon.com für Canyon San Martin de la Val d'Onsera Marche d’approche splendide et balisé jusqu’à départ. Équipement ras.Canyon très sympa avec ce débit d’eau. Le bas de combinaison est utile, un kway en haut est suffisant, beaucoup de vent aujourd’hui. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/2811/observations.html)

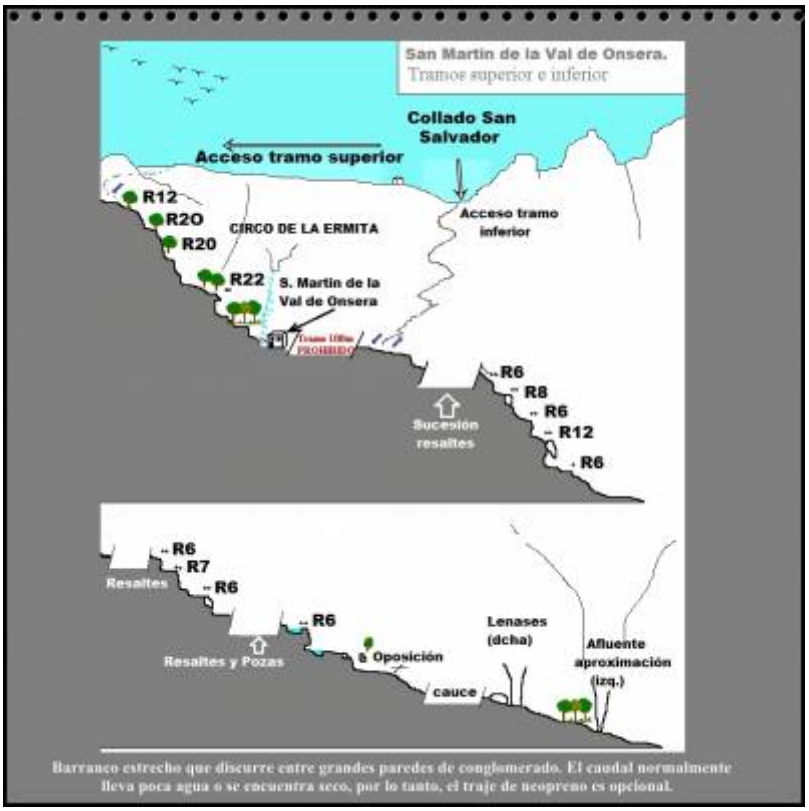

2024-05-03 | System User | |🕮 |⚓ | 〰 Low | 👍 Completed
Automatisch importiert von Descente-Canyon.com für Canyon San Martin de la Val d'Onsera Joli canyon à descendre avec un peu d'eau. La marche d'approche est longue un peu longue mais le dépaysement garanti. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/2811/observations.html)

2024-04-30 | System User | |🕮 |⚓ | 〰 Normal | 👍 Completed
Automatisch importiert von Descente-Canyon.com für Canyon San Martin de la Val d'Onsera Belle marche d'approche, site mystique, canyon sympa avec pas mal de cascades successives agréables à franchir. Le bas de combi est suffisant mais nécessaire. Lenase ne coulait pas. Une pensée pour les espagnols sortis de nuit sous la pluie sans combinaison la veille au soir (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/2811/observations.html)

2023-10-19 | System User | |🕮 |⚓ | 〰 High | 👍 Completed
Automatisch importiert von Descente-Canyon.com für Canyon San Martin de la Val d'Onsera Rainy day. Access path up to the junction (and exit path) under water. Sporty and varied at this water level. Anchorages top. 2 dead vultures in the gorge. These are not water birds! ???? (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/2811/observations.html)
