Summary: (machine translated)
Silbergraben is quite a nice canyon, with quartz-streaked limestone forming aesthetic shapes. Aquatic rappel canyon without possible jumps.

Hydrology:

Access: (machine translated)
The B100 connects Spittal an der Drau and Lienz. In Oberdrauburg turn south onto the 110 towards Kötschach. After the serpentines of the Gailbergsattel, a forest road branches off in a left-hand bend with a bus stop. Park here or 50m further on the right (green check in the map).

Approach: (machine translated)
Simply follow the forest road and then descend the steep meadow (dotted red on the map).

Tour: (machine translated)
The Silbergraben offers 8 rappelling points with strong water contact in roaring pools. But do not worry, the pools are not deep and do not pose a problem at normal water levels.The finale is an almost 50-meter high waterfall that has considerable risk of falling rocks. There are no emergency exits.

Return: (machine translated)
On the right, shortly after the last cascade, a path leads along the stream. To save yourself the tedious way back along the road, it is advisable to park a second car in Waidach at the turnoff to the silver waterfall. Alternatively, you can stop at the car stop. So take dry clothes with you.

Nice canyon, the chains between the anchors are very rusty. We placed a new anchor

Stands in poor quality, which fits at the high rappel. The parking lot described below is on private land. We had a nice chat with the owners and it was no problem. (machine translated)

Unerwartete, schöne, kurze und bequeme Schlucht... gute Wasserführung. Bessere Ausrüstung sollte nachgerüstet werden. Unzureichende Waffen. Route von 3 Personen aus der CanyonEast-Gruppe. (machine translated)
