Summary: (machine translated) Silbergraben is quite a nice canyon, with quartz-streaked limestone forming aesthetic shapes. Aquatic rappel canyon without possible jumps.		
Hydrology:		
Access: (machine translated) The B100 connects Spittal an der Drau and Lienz. In Oberdrauburg turn south onto the 110 towards Kötschach. After the serpentines of the Gailbergsattel, a forest road branches off in a left-hand bend with a bus stop. Park here or 50m further on the right (green check in the map).		
Approach: (machine translated) Simply follow the forest road and then descend the steep meadow (dotted red on the map).		
Tour: (machine translated) The Silbergraben offers 8 rappelling points with strong water contact in roaring pools. But do not worry, the pools are not deep and do not pose a problem at normal water levels. The finale is an almost 50-meter high waterfall that has considerable risk of falling rocks. There are no emergency exits.		
Return: (machine translated) On the right, shortly after the last cascade, a path leads along the stream. To save yourself the tedious way back along the road, it is advisable to park a second car in Waidach at the turnoff to the silver waterfall. Alternatively, you can stop at the car stop. So take dry clothes with you.

A nice canyon with a high, technical last descent. (machine translated)

Stands in poor quality, which fits at the high rappel. The parking lot described below is on private land. We had a nice chat with the owners and it was no problem. (machine translated)

Unerwartete, schöne, kurze und bequeme Schlucht... gute Wasserführung. Bessere Ausrüstung sollte nachgerüstet werden. Unzureichende Waffen. Route von 3 Personen aus der CanyonEast-Gruppe. (machine translated)
