Summary: (machine translated)
At normal water level, three gorges suitable for children and beginners in red and white stratified limestone. Two in the Ardo valley, one in the Val di Botte. For the two Ardo gorges no ropes are necessary.

Hydrology:

Access: (machine translated)
From Belluno, take the SP 1 over the Piave River in a southwesterly direction, past Limana until you reach Trichiana. Here turn left (south) towards Passo San Boldo and go up to Sant'Antonio Tortal. 150m before the village, park your car on the right at the cemetery (designated parking for the tours in the valley of the Ardo). Then take the road south of the cemetery to the right off the main road. The following routes and canyon descents are shown in the map sketch under Gallery.

Approach: (machine translated)
From the exit of the tarred road, descend along the marked path to the stream that you cross above the lowest gorge. On the other side of the stream stay on the lower path that soon crosses the stream from Val di Botte. Access to Val di Botte. A little after the streambed crossing a path branches off to the right, follow this uphill through the forest until a forest road branches off to the right. Here is the entry to Val di Botte.
After the tour through Val di Botte, descend almost to the confluence with the Ardo and hike up along the edge of its streambed or in the streambed until you reach the lower exit of the uppermost gorge - Brent Rizzo. Go up the stream until you see the path on the orographic right bank, where you can go around the gorge on a good path. Above the gorge descend to the streambed.
After the tour of the Brent Rizzo, go down through the streambed until you reach the Brent Grande at the bridge.

Tour: (machine translated)
Brent delle Val di Botte: Narrow gorge in stratified limestone with low water flow. 3 rappels and slides/jumps in beautiful pools. The tour ends with a very narrow mini gorge.
Brent Rizzo: depth but very shallow gorge with longer swimming passages.
Brent Grande: great rock formations, a 1.5m jump in the middle of the gorge some deadwood and a longer swimming passage towards the exit.

Approximate walking times:
Parking lot - bridge: 25 min.
Bridge - Botte entry: 25 min.
Canyon Botte: 50
Exit Botte to the entry Brent Rizzo: 20
Brent Rizzo: 30
End Rizzo to the bridge, Grande entry: 15
Brent Grande Canyon: 20
Exit to parking lot: 35

Return: (machine translated)

Automatisch importiert von Descente-Canyon.com für Canyon Ardo, Val di Botte Val di Botte portata alta, ma discesa effettuata evitando tuffi e toboga perché pozze turbolente. Armi ok anche con questo tuffo.Ardo e Brent Rizzo abbiamo sceso solo i tratti aperti perché flusso nei corridoi era pericoloso e con solo acque bianche. Visto tale flusso siamo usciti prima delle strettoie. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/23873/observations.html)

First Brent Rizzo, then 10 minutes up to Val di Botte and finally Brent Grande (Brent de l'Art). A bit choked at the bottom, but no problem with our water level. In Val di Botte everything went to slides/jumps. You should definitely take it with you (machine translated)
