<b>Summary:</b> (machine translated) Short but intense ravine with a high flow in thaw and after rains.		
<b>Hydrology:</b>		
<b>Access:</b> (machine translated) In Andorra La Vella we will take the CG2 towards Envalira. After passing Canillo and just before El Tarter we have a traffic circle that takes us to the left to Ransol. Once in Ransol we go left towards Plans, just in the curve there is a street on the left and at the end we can park. If we have two cars before reaching the traffic circle we have a gas station on the left, here we can park which is the exit of the ravine.		
<b>Approach:</b> (machine translated) Immediate access to the river.		
<b>Tour:</b> (machine translated) Several rappels that with low water flow have no major problem but in spring can be a challenge (for people with experience). It is an alpine stream, not too steep but with several small waterfalls that are rappelled by the active.		
<b>Return:</b> (machine translated) If we have two cars after the last rappel we go out to the gas station. If not, turn right onto a path that takes us up to where we have stopped.
