Country: España / Spain **Region:** País Vasco / Euskal Autonomia Erkidegoa **Subregion:** Vizcaya / Bizkaia **Town:** Orozco		
Difficulty: not as difficult	**Grading:** v3 a1 II	**Total time:**
Approachtime:	**Tourtime:** 2h	**Returntime:** 30min
Altitude entry: m	**Altitude exit:** m	**Delta Altitude:**
Canyon length: 680m	**Highest rapell:** 41m	**Amount rapells:** 7
Transport:	**Rock type:**	**Drainage area:** km²
Season: September - May	**Orientation:**	**Best Time:**
Rating: ☆ 0 ()	**Info:** ★ 0 ()	**Belay:** ★ 0 ()

Specialities:

Gear:

Summary: (machine translated)
Descent in the park of Gorbea surrounded by lush vegetation and few chances to meet people. We will expect a descent with a beautiful waterfall of almost 40 meters, little water (ideal if others are strong) and almost adventure environment with all rappels from natural.
Possibility of combining cars, lengthen the proposed descent in the topography of Dulanto to a lower track, etc.. It gives a lot of game.

Hydrology:

Access: (machine translated)
From Orozko (Zubiaur) we take the BI3513 (Ibarra, Artea) to Gorbea Park.
We continue until the detour to Urigoiti on the right, soon in the neighborhood of Usabel we see the cemented track that goes to the right towards the Gorbea Park. A few meters before we have room for the return car if we are going to make combination of vehicles or if we are going to lengthen the descent to the lower track.
With the access car or if we are only going to do the Dulanto option, we go to Orozco and at the exit we have the detour to the neighborhoods of Beraza and Garai, from here to Goiri. From here we will continue upwards by a track in good condition that passes over Sendegi and between forests would take us to the head of the ravine.

Approach: (machine translated)
If we have parked up it is immediate.
From below we leave by the Gorbea track, after 50m we cross the channel and there is a track on the right we will take it and climb 3kms to the head.

Tour: (machine translated)
All in natural, slippery and generally with little water, much better to do it after heavy rains. We will arrive after several short rappels to the 40m waterfall after which we can exit to the right along the slope to the track (Dulanto's option).
Or we can continue descending to a track that crosses us, making another 6-7 rappels.

Return: (machine translated)
If we leave after the R38, we will go up the hillside, following traces of trails to the track and follow it up to the car.
If we leave the track we take it to the right and then downhill, it will take us right to the road bridge.

Coordinates:
Canyon Start 43.1075 -2.9114
